1. Services Offered

Maryann offers her services as an Alternative Healing Arts Practitioner providing intuitive assessments and readings; mediumship; energy modalities, clearing, and balancing for individuals, animals, and property; and shamanic processes. The approaches she primarily uses in her practice are **Holistic Health, Medical Intuition, Mediumship, Emotional Freedom Techniques (EFT), Shamanism, Past Life Regression, Scalar Wave,** and **Intuitive Mentoring & Coaching**, all of which are considered part of the field of Complementary and Alternative Medicine (collectively the “CAM Methods”). Maryann specializes in using the CAM Methods to help her clients obtain information from alternative pathways in the energetic and non-physical realms for a holistic approach to health and well-being. She focuses on assisting her clients to access their own wisdom for personal growth, spiritual development, and self-healing. In addition, she offers her services for those dealing with overwhelming life experiences and cult recovery. Maryann may also, depending on the client’s comfort level, offer additional energy-oriented techniques, if she feels that they would be helpful. Please be advised you have the option of using individually or collectively recommended CAM Methods offered by Maryann as part of your work with her. Some of the more advanced services require a prerequisite initial session. For further information regarding the CAM Methods, please refer to the **Additional Client Information & Office Policies** document which is attached hereto and made part of this Agreement.

2. CAM Methods/Theoretical Approach

CAM Methods is a collective term used to refer to a variety of alternative techniques, approaches, methods, and intuitive assessments based on the use and modification of energy fields and other spiritual and metaphysical processes. They are intended to help improve overall health and well-being and for personal growth and spiritual development. The prevailing premise of the CAM Methods is that the flow and balance of the body's electromagnetic and more subtle energies are important for physical, emotional, mental, and spiritual health, and for fostering well-being.

Although the CAM Methods appear to have promising health benefits, and there is a growing amount of scientific research indicating that EFT meets the criteria to be considered an evidence-based technique for managing stress, they are considered outside traditional Western approaches to health and wellness. Therefore, they have yet to be fully researched by the Western academic, medical, and psychological communities. Consequently, the CAM Methods are considered experimental. The CAM Methods are self-regulated and no state in the United States licenses practitioners of the CAM Methods and considers them to be *alternative* or *complementary* approaches.

3. Nature of the Relationship

By signing this document, you understand that Maryann is offering her services solely as an Alternative Healing Arts Practitioner offering the CAM Methods. She is not a psychotherapist, physician, or any other licensed health care provider nor are her services licensed by the state of New Jersey. Therefore, your relationship with Maryann is not to be construed as psychotherapy, medical treatment, or any type of licensed health care service.

In addition, you understand that as a practitioner of the CAM Methods, Maryann does not provide any medical, psychological, veterinary, or any other licensed health care advice, opinion, or service and does not diagnose, treat, or cure any disease, condition, or other physical or mental ailment for individuals or animals. Also, although Medical Intuition uses the term "medical", it is not to be construed that the use of the CAM Methods is the practice of medicine, veterinary medicine, psychotherapy, or any other licensed health care practice. Rather Maryann offers her services to clients with the intention to assist them in restoring balance and energetic flow in the body; thereby, creating the opportunity for the client to be empowered for mind/body/spirit to heal naturally. You understand there is a distinction between "healing" using the CAM Methods and the practice of any licensed health care practice.

4. Other Important Information Regarding the CAM Methods

You understand that the services Maryann offers, and the use of the CAM Methods are **not** intended to be a substitute for medical, psychological, or veterinarian diagnosis or treatment and they do not replace the services of licensed health care providers. If your session is for you personally, you agree and understand it is your responsibility to consult with your licensed health care provider for any specific health care problems. If your session is for your animal, you agree to consult with your animal's veterinarian for any specific health care problems. Further, if your session is for you personally, you understand that any information shared during your session is not to be considered a recommendation that you stop seeing any of your licensed health care providers or stop using prescribed medication, if any, without consulting with your licensed health care provider, even if after your session it appears and indicates that such treatment or medication is unnecessary. In addition, if your session is for your child; someone for whom you are guardian; or for your animal, you understand that any information shared during a session is **not** to be considered a recommendation that the associated person(s) or animal stops seeing his/her licensed providers or veterinarians or using prescribed medication, if any, without consulting with your licensed provider or veterinarian, even if after working with you, your child, the person for whom you are the guardian, or for your animal it appears and indicates that such treatment or medication is unnecessary.

5. Outcome Expectations/Risks and Benefits

While clients report positive outcomes in using Maryann's services, please note that it is not possible to guarantee any specific results and it is unknown how you, your child, someone for whom you are guardian, your animal, or your property, whichever is applicable, will respond to using the CAM Methods. However, Maryann will work with you to achieve the best possible results for you or for whomever is the session subject (child, person for whom you are the guardian, animal, or property). Participation in sessions can result in a number of benefits to you, your child, the person for whom you are the guardian, your animal, or property, including improved health and well-being and/or resolution of the specific concerns that led you to seek Intuitive Services Insight® services.

While the CAM Methods are considered gentle and non-invasive, it is possible during or after a session to recall some past memories and their associated experiences.

6. Cancellations

Scheduling of appointments involves the reservation of time specifically for you. Therefore, a minimum of 72 hours advance notice is required for rescheduling or cancelling an appointment. Upon email receipt of a full 72 hours notice, there will be a one-time opportunity to reschedule at another time. Unless otherwise agreed, missed appointments with no written cancellation notice are not eligible for refund or rescheduling. As this is sacred work not done for entertainment, clients are to refrain from alcohol or substances causing impairment. Sessions will be canceled with fees forfeited when deemed that impairment precludes active participation.

Acknowledgment & Consent to Receive Services

By signing this document, you agree that Maryann has disclosed to you sufficient information to enable you to decide to engage or not engage Intuitive Services, LLC and to make an informed decision regarding using her services. You have considered all of the above information and the attached ***Additional Client Information/Office Policies & Procedures*** document and have information you deem necessary to make an informed decision.

You understand that Maryann is only offering her services as an Alternative Healing Arts Practitioner. Further, you understand that your relationship with Maryann is not to be construed as medical/veterinary treatment, psychotherapy, or any other licensed health care service, nor are her services a substitute for these services. Maryann has disclosed to you that she is not a licensed health care provider, and her services are not licensed by the state of New Jersey.

You understand that your consent to the nature of your session(s) is given voluntarily, without coercion, and may be withdrawn at any time in the future. You represent that you are competent and able to understand the nature and consequences of the proposed session(s) and agree to be personally responsible for the fees related thereto.

You understand that the CAM Methods are considered outside of traditional Western approaches and the extent of their effectiveness, as well as their risks and benefits are not fully known. Therefore, you agree to assume and accept full responsibility for any and all potential risks associated with them. Further, you agree and understand this Agreement is intended to be a complete unconditional release of liability and assumption of risk to the greatest extent permitted by law.

Any and all matters in dispute between the parties to this Agreement, whether arising from or relating to this Agreement itself, or arising from alleged extra-contractual facts prior to, during, or subsequent to this Agreement, including, without limitation, fraud, misrepresentation, negligence or any other alleged tort or violation of the contract, shall be governed by, construed, and enforced in accordance with the laws of state of New Jersey, without regard to conflicts of law doctrines and regardless of the legal theory upon which such matter is asserted. This Agreement shall be binding upon you, your heir(s), and legal representative(s). If any portion of this Agreement is held to be invalid, it is agreed that the balance of this Agreement shall continue in full force and affect.

By signing in the space provided at the very bottom, you knowingly and voluntarily assert that you are at least eighteen (18) years of age; are competent to contract this legal document in your own name; and assume these risks and agree to irrevocably release, indemnify, hold harmless and defend Intuitive Services, LLC its owner(s), member(s), employees, agents, representatives, and consultants from and against any and all claims of whatsoever kind or nature, which you may have for any loss, damage, or injury, including without limitation, physical, emotional, mental, financial, legal, or personal arising out of or in connection with your session(s).

CLIENT INFORMATION & OFFICE POLICIES

Attachment to CLIENT AGREEMENT & DISCLOSURE STATEMENT

1. CAM Methods

Holistic Health & Medical Intuition

Holistic Health uses intuitive assessments as tools for supplementary insight to discern energetic imbalances and to uncover vibrational energy patterns that may be causing health challenges for the client. Medical Intuition is defined as a system of expanded perception gained through the development of the human sense of intuition. Medical Intuition focuses on visualization skills and in-depth intuitive scanning to obtain information from the body and energy system for health and well-being. A Holistic Health and Medical Intuition reading is intended to bring into conscious awareness information to assist clients in addressing issues or concerns.

Mediumship

Mediumship is considered the practice of using clairvoyant or intuitive abilities with the intention to tune into the spirit energy surrounding the client, including the client's Higher Self. The premise is that a medium can receive information directly from the Higher Self and also those who have transitioned from their physical life to their spiritual life as well as spirit guides and angels. Maryann relies on the presence of non-physical energy outside of herself for information relevant to the client being read. While it is not possible to provide any guarantees, Maryann can attempt to make connections with and deliver messages from people who have transitioned to their spiritual life to those who are still here. In Spirit Mediumship sessions, it is not up to Maryann as to who chooses to come through to share messages for loved ones. It is Maryann's work in partnership with you, the client, to set the highest intention for the best outcome regarding all IS services rendered for all present. Maryann makes no representation that any information provided is accurate or useful.

Emotional Freedom Techniques (EFT Tapping)

EFT is considered an innovative energy-oriented healing and self-help technique based on the newly emerging field of energy psychology. EFT seeks to address imbalances within a person's energy system, as well as the energetic influence of thoughts, beliefs, and emotions on the body. The prevailing premise of EFT is that the cause of all challenging, stressful, and/or negative emotions is a disruption in the body's energy system. It is believed that EFT helps clear these disruptions, thereby calming the mind and restoring the flow and balance of the body's electromagnetic and more subtle energies. EFT uses the ancient Chinese meridian system with a gentle tapping procedure which stimulates designated meridian end points on the face and upper body while saying specific phrases and focusing on stressful issues in order to release the intensity of the stress and to reframe the issues. In an EFT session, the client does the tapping on the client's own body and the practitioner helps guide the session by instructing the client where to tap. If you are not able to "tap" for yourself, then Maryann may need to remotely "tap" for you.

Shamanism

Maryann offers a form of spiritual healing known as shamanic healing arts that may include a variety of spiritual healing methods, including power ally and soul retrieval, energetic cord removal, extraction of negative energy, removal of foreign energy by compassionate depossession and psychopomp. She also offers shamanic divination work designed to seek guidance from compassionate Helping Spirits in order to address specific issues, problems, or questions (collectively the "Shamanic Processes"). Shamanic Processes are intended to access spiritual realms for personal healing, growth, and transformation. Using the Shamanic Processes, Maryann is guided to interact with her client's Higher Self and Spiritual Guides to help restore balance and wholeness for the client. A shamanic practitioner operates primarily within the spiritual world, which in turn can positively affect the physical world.

Past Life Regression

Past Life Regression is intended to take the client back through time to their previous lives or incarnations by accessing experiences that are normally hidden in their subconscious mind. Past Life Regression may be helpful in understanding issues that are of concern in the client's current life.

Scalar Wave

Scalar Waves are considered an energy healing technique that uses energy waves or scalar waves for health and well-being. The materials that are used in this technique relate to quantum science and quantum energy. This technique utilizes scalar energy frequency that can help enhance, motivate, protect,

and balance the client's autonomic nervous system, and it can also reduce stress. It can also be useful in reducing feelings that are associated with habitual actions, which are negative, and helps in detoxifying cells and promoting relaxation.

Animal Communication

If your session is for your animal, Animal Communication may be incorporated into your session. With Animal Communication, the practitioner intuitively tunes into the animal to receive information from the animal regarding the particular issue presented. An animal session is designed to discern the energetic cause of a problem or issue and then to neutralize it; thereby creating the possibility that a positive change can occur which may be experienced.

Intuitive Mentoring & Coaching

Intuitive Mentoring & Coaching is designed to enable clients, through intuitive readings, to receive insights, wisdom, and direction from the client's Higher-self and others in the non-physical world with the intention to provide support for spiritual and energetic growth and expansion for the client. Session may include, but are not limited to, mediumship, intuitive readings, support, practicing skills together, coaching, homework, structure, and tracking progress.
